<u>Installation Service</u>

LouderVoice can optionally do the full deployment on the client site on behalf of the IC. The cost for this is **$140 / £85 / €100**.

Deployment should take less than an hour. However if, due to onerous site complexity, it takes longer, we charge $140/£85/€100 per hour after the first hour and will contact the IC before exceeding the initial hour.

Contact wsi@loudervoice.com if you have any questions regarding other tiers/options.
